

Dear School Administrator:

As a parent, it is important to me that my children have access to healthy, fresh food choices at home and at school.

I have found a local company that offers fresh, healthy and all-natural lunches and delivers them directly to schools. They are available to set up a tasting with you and other staff from the school to see if this might be a good fit.

They currently are serving over 20 schools in Central Florida. Ordering is totally online for parents and paperless for the school. All lunches come individually boxed and labeled for easy distribution. They do offer a fundraising component as well.

You can reach them at 407- 687-3644 or via email [info@wholesometummies.com](mailto:info@wholesometummies.com)

Thank you for making our children's health a priority!

Sincerely,
